9 of 9 people found the following review helpful. Useful!By LauraI bought this book for my Dad who was interesting in building a spinning wheel. The wheel he made is beautiful and works wonderfully!0 of 0 people found the following review helpful. Five StarsBy Virginia BunnBought as gift. As described, looking forward to see how it turns out.1 of 1 people found the following review helpful. InspirationBy D. L. HallIt's a small and simple book, and it

shows you how you can make your own spinning wheel without the expense of a lathe. I'm hanging on to this book for sure, and will eventually make my own spinning wheel. The author makes it sound almost as simple as making a spindle.
