Has some great examples of Clematises, but is not a full guide by any means.By Ma\_KettleI recommend that a person borrow it and other Clematis books from the library before buying this one. It's only 64 pages long IF you include the index.0 of 0 people found the following review helpful. Five StarsBy DLGreat

This book explains how to use clematis to its best advantage, from achieving seasonal interest to combining them with other plants. A fully illustrated directory of 40 recommended varieties, together with expert advice on how and where

to plant them, will help you to create a bold and bright display in all types of garden.

About the Author Andrew Mikolajski is an established and highly respected gardening expert. He edited the RHS Encyclopedia of Plants and Flowers and the RHS Encyclopedia of Gardening (both Dorling Kindersley), and he has contributed articles to every major gardening magazine and specialist journal.
